RUCSACS

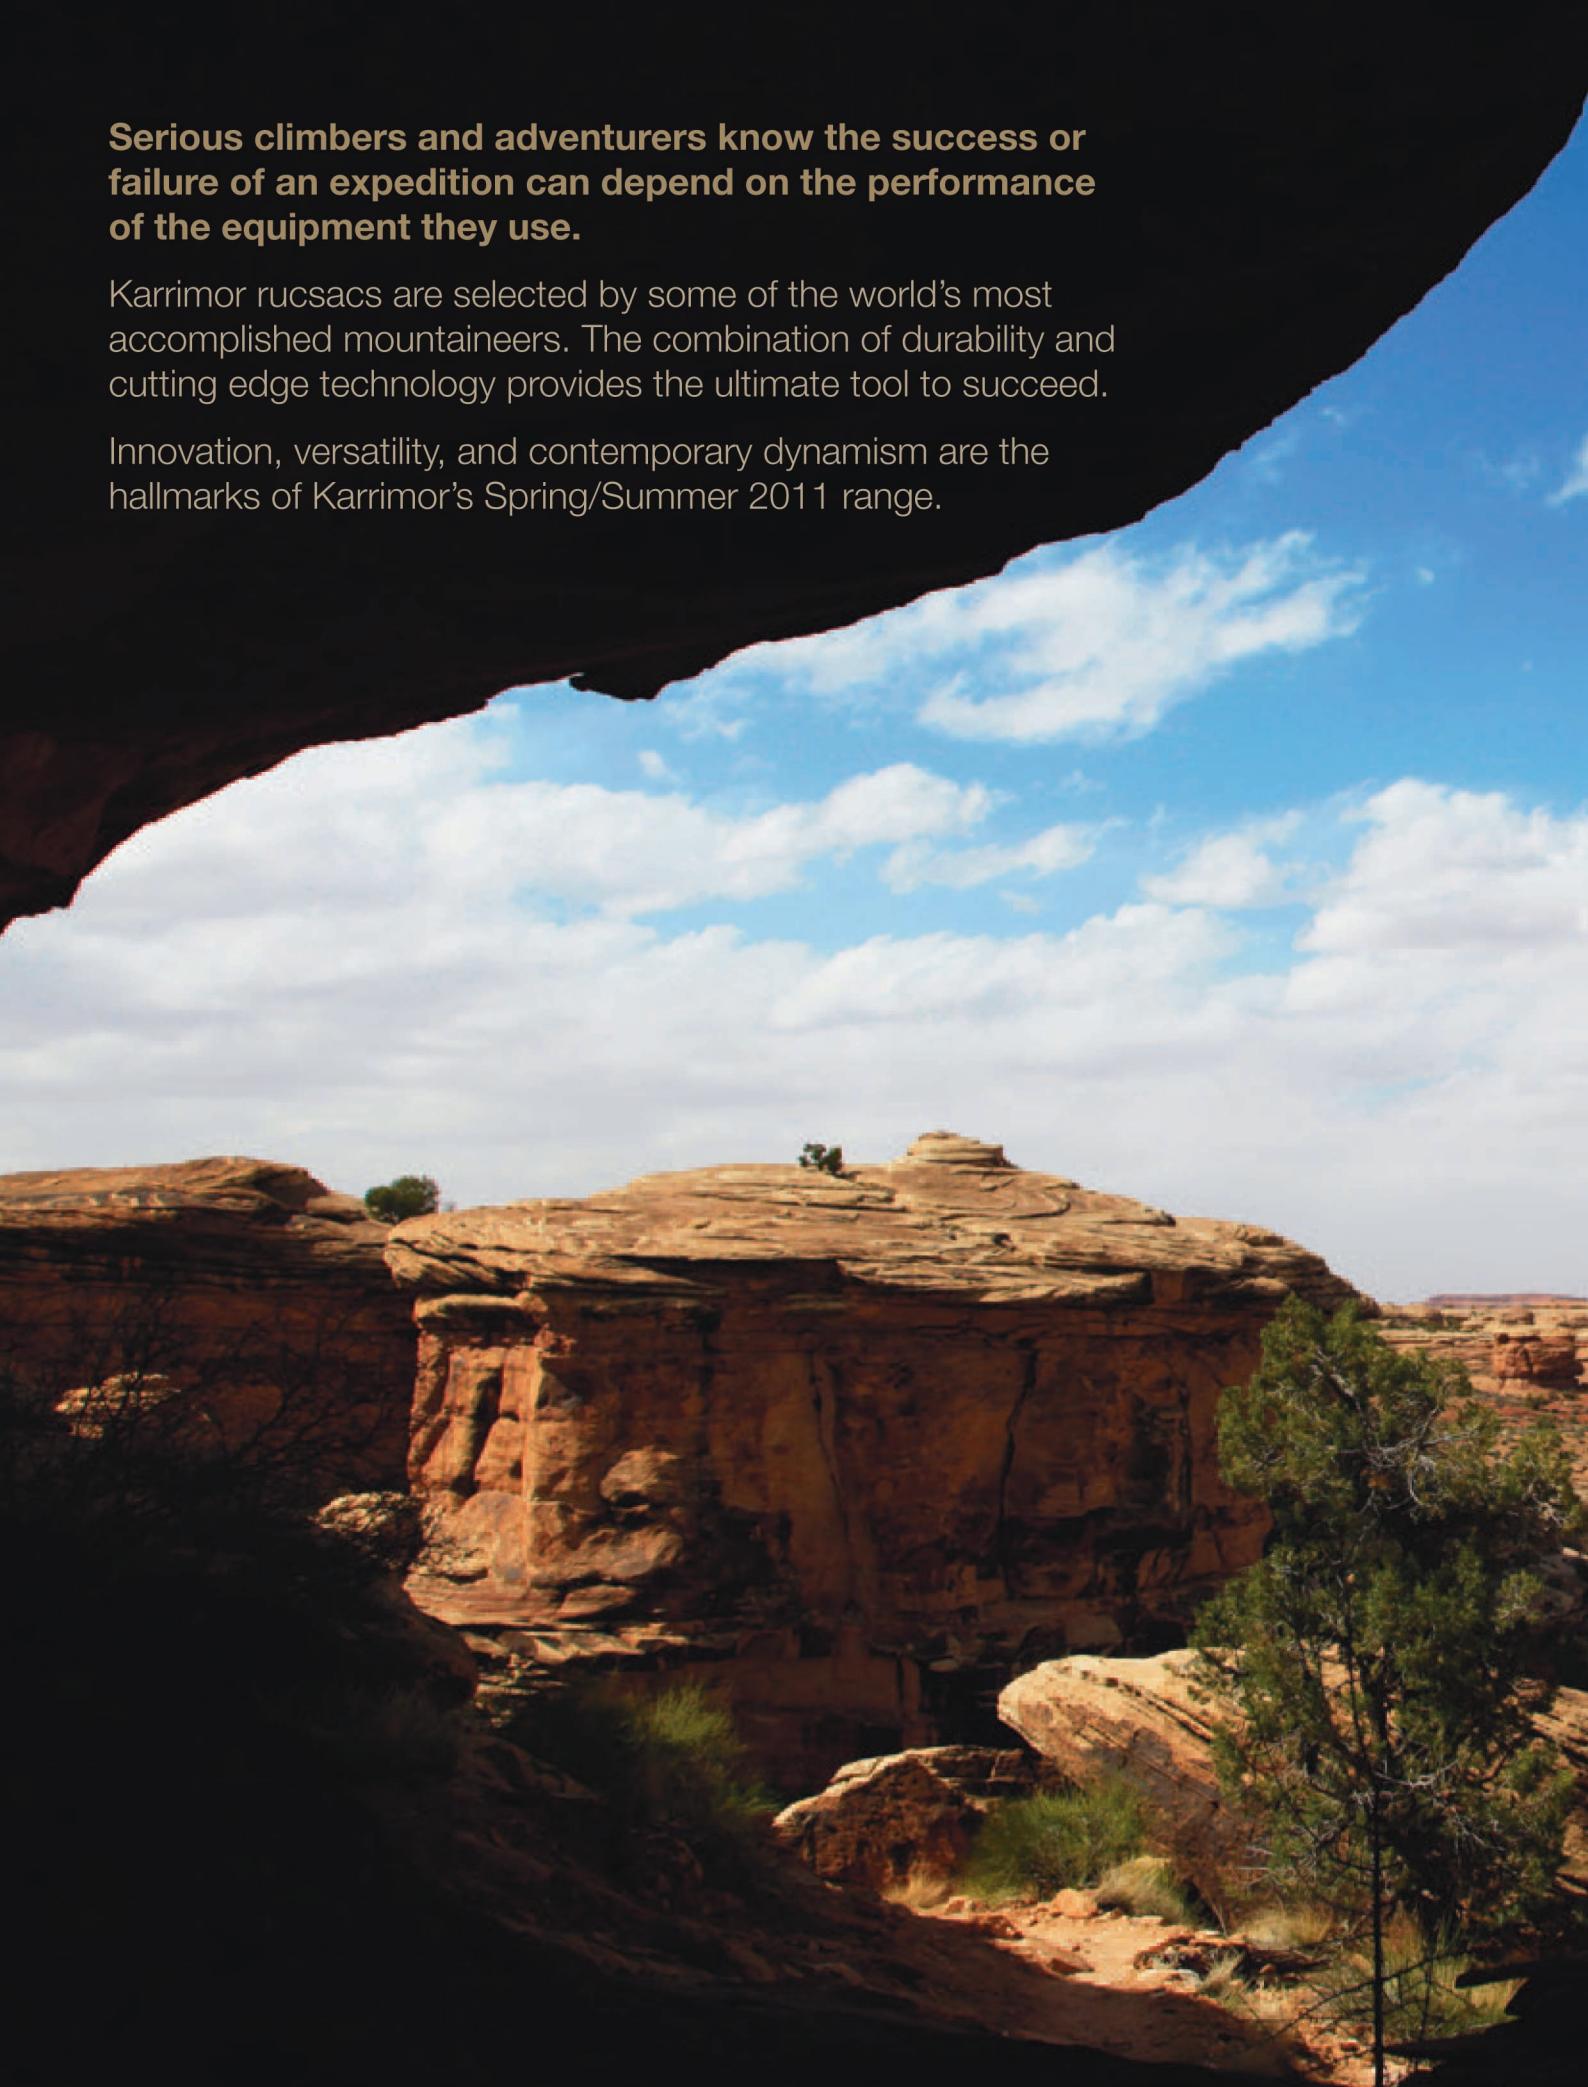

karrimor®

Serious climbers and adventurers know the success or failure of an expedition can depend on the performance of the equipment they use.

Karrimor rucksacs are selected by some of the world's most accomplished mountaineers. The combination of durability and cutting edge technology provides the ultimate tool to succeed.

Innovation, versatility, and contemporary dynamism are the hallmarks of Karrimor's Spring/Summer 2011 range.

ALPINE

For over four decades, Karrimor has been leading the way in design and innovation of Alpine rucksacs.

The new SS11 Alpine range does not just build on traditional rules of design, it defines high performance design ethos on which competing products in its class will be judged.

LIGHTWEIGHT

The Karrimor X lite range was launched in 2006, winning one of the inaugural European Outdoor awards for innovation at the Friedrichshafen trade fair.

Now, The SS11 X lite packs provide a superb combination of versatility, stability and comfort with minimum pack weight.

If you are running, biking, climbing or backpacking, the X lite range offers radical new solutions for extreme adventures.

BACKPACKING

For over half a century, Karrimor has been the UK's leading backpacking brand.

Since the introduction of the revolutionary SA back system in 1983, Karrimor has continually evolved and developed size adjustable technology to remain at the cutting edge of backpacking.

3 levels of size adjustable back systems offer a customised fit with extreme simplicity. Shoulder and hip harnesses provide improved levels of load distribution and carrying comfort.

SS11 sees the introduction of 2 new styles (Caracal and Lynx) for both men and women. These are versatile, smaller capacity packs featuring a full SA System, ideal for weekends in the hills and mountains.

Airspace is a perfect description for this back system for day packs and day trekking packs. Minimal contact between mesh panels and the wearer's back allows for both the horizontal and vertical flow of air, keeping the back cool and virtually sweat free.

Combined with a floating hip belt and a strong, lightweight construction, Airspace packs provide superb levels of carrying comfort in small to mid-sized capacities.

- Structured, padded laptop sleeve
- External zipped pocket
- Luggage handle compatible

Colourways:

- Hydro
- Glacier
- Cinder
- Dark Fire

Synonymous with tough convertible travel packs, Karrimor leads this category with bags featuring the famous SA carrying system from the backpacking range.

The Global convertibles are equally effective performers as full backpacks or more conventional luggage pieces, with the added benefit of a detachable 15 litre day pack.

In addition Karrimor now offers versatile wheeled luggage with a variety of carrying options from extendable pull handles to shoulder straps.

VISITOR INFO TRAVEL

Global 70-90 12514

Weight 3200g

FABRIC INFORMATION

P600D

A 600 denier polyester plain weave fabric providing a keen balance of performance and value.

N420D DOT MATT

A 420 denier nylon fabric providing a lighter weight option for the larger trekking packs without compromising performance.

N1000D

A combination of 1000 denier nylon yarn with a 5 coat silicon/PU mix and silicon DWR provides an extremely durable, high strength fabric.

P300D MINI RIPSTOP

A 300 denier mini ripstop polyester fabric that has excellent performance and value.

N500D

A 500 denier plain weave nylon with a 3 layer PU coating and fluorocarbon DWR giving a fine balance of weight, abrasion, resistance and strength.

HYPALON

Exceptional abrasion resistance, making it an ideal fabric for high wear areas.

N420HD

A 420 denier nylon plain weave fabric providing a lighter weight option for the larger trekking packs without compromising performance.

N210D STRIPE RIPSTOP

A 210 denier ripstop fabric that is used on the X lite range to provide excellent tear resistance.

P450D MINI RIPSTOP

A 450 denier mini ripstop fabric that gives excellent performance/price value.

N420D DYNATEC

A 420 denier nylon used in the Alpine range to provide an excellent performance balance between weight and abrasion.

N100D DOUBLE DIAMOND RIPSTOP

A 100 denier nylon double ripstop combining super lightweight material with great abrasion and tear resistance.

N400D TWO TONE

A 400 denier nylon two tone fabric combining great performance and eye catching aesthetics.
